

Letter of Recommendation

I am pleased to recommend Mr. Adnan Abbas Kanchwala, a standout student in the Mechatronics Engineering program at Mukesh Patel School of Technology and Management, NMIMS University, Mumbai. I had the pleasure of instructing Adnan in Mechanics of Materials during semester IV and CAD/CAM/CIM in semester VI.

In Mechanics of Materials, Adnan demonstrated exceptional analytical skills, applying numerical analysis to understand mechanical systems and stress parameters. His commitment to academic excellence was commendable.

In the CAD/CAM/CIM course, Adnan excelled in hands-on designing using SOLIDWORKS, ANSYS, and AUTOCAD. Active participation in practical programming lessons in the CNC Lab equipped him with valuable experience in manufacturing methods and CAD-CAM integration.

Throughout both courses, Adnan's dedication and practical application of knowledge were evident, fostering an engineering mindset and logical thinking. In my opinion, Adnan is a driven student who strives to do well in his classes and beyond. He has the zeal and commitment to succeed in his endeavours.

Adnan's passion for learning, commitment to excellence, and ability to translate theoretical concepts into practical solutions make him an exceptional candidate for future endeavours in Mechatronics Engineering. I am confident he will continue to excel in his academic and professional pursuits.

Sincerely,

Chetna
